

**ONE-STOP-SHOP FOR FINANCIAL  
INSTRUMENTS AND INNOVATION  
SUPPORT FOR SMES IN SOUTH  
EAST EUROPE**

To support the growth and development of SMEs from South-East Europe (Bosnia and Herzegovina, Croatia, Montenegro, North Macedonia, Serbia and Slovenia), SEE Enterprise Europe Network Consortia came upon the idea to create FINNO an online platform that would improve the access to finance and facilitate the innovation process from business ideas to commercial success.

FINNO is open for companies that already trade worldwide and those that are just starting to look into international markets. It offers all relevant and available financing and innovation opportunities suitable for your business through a simple call to our expert advisors. The platform enables direct interaction between companies and advisers from SEE countries. They are international experts in their fields with experience and resources to help your business grow and provide you with a personalized support.

Whether you are looking for a funding solution for your innovation or you are planning the expansion to international markets, finding a competent and reliable source of financing should be one of your first steps. This is the moment where FINNO should step in, to save money and time.

#### **WHAT IS OUR GOAL?**

- Strengthen the growth and development of SMEs from South East Europe (Bosnia and Herzegovina, Croatia, Montenegro, North Macedonia, Serbia and Slovenia)
- Improve the access to finance and facilitate the innovation process from business ideas to commercial success on international markets

#### **WHAT DO WE OFFER?**

- FINNO is the solution to make the right choice between various types of SME financial and innovation support by different EU programs and institutions
- Information on all relevant and available financing and innovation opportunities suitable for your business
- Recommendations on which EU funding and financing programs can you apply for
- Advise on how to find SMEs and financial institutions that could be your partners in particular EU programs
- What is the best way to connect with international innovation stakeholders and further develop

#### **TURN YOUR PAINS INTO GAINS!**

We know finding a perfect solution to fund your business or innovation is painfully hard. Have you ever spent countless hours researching just to realize you are completely lost in the sea of acronyms? What does RCC or WB EDIF mean? Let us worry about that!

**TRY FINNO AND SOLVE YOUR FINANCIAL  
AND BUSINESS ISSUES!**
